

**AIR DATA ACCESSORIES KIT**  
**MODEL No. ADASS-612**  
**BEECH STARSHIP AIRCRAFT**

## AIR DATA ACCESSORIES KIT MODEL No. ADASS-612 BEECH STARSHIP AIRCRAFT

The kit contains all the equipment required to test from source the pitot and static air data system on the Beech Starship aircraft, as well as the means of pre-testing all adaptors and hoses prior to being fitted to the aircraft.

### **Pitot & Dual Static Test Adaptor**

#### **Part No. PSS88364-3-4-4 (2 req'd.)**

These units fit the pitot static probes P/N 856NU-FT1&2 located on the nose and when installed they will isolate and test each system separately or simultaneously.

### **Pre-Test Probe**

#### **Part No. PT18836 (2 req'd.)**

When it becomes necessary to test the integrity of the pitot & dual static test adaptors and/or hoses and test set, these units are installed into the pitot and dual static test adaptors thus simulating the pitot probe.

### **Pitot Test Hose Assembly**

#### **Part No. 340-7270 (1 req'd.)**

This hose is connected to each pitot inlet of the adaptors and is fitted with double acting quick disconnects for use when it is desirable to test only one pitot system.

### **Static Test Hose Assembly**

#### **Part No. 340-5160 (1 req'd.)**

This assembly attaches to the static fittings. The double acting quick disconnects operate in the same manner as that on the pitot test hose assembly.

### **Lubricating Fluid**

#### **Part No. LF5050 (1 req'd.)**

This fluid is used to lubricate the glands of the pitot & dual static test adaptor. It is recommended that a small amount be placed on the glands before installing adaptor on pitot probe. This will ensure smooth installation.

### **Seal Kit - Part No. SK364**

Two sets of spare seals are stowed in the case cover.

### **Manual - Part No. SS-421**

One manual is supplied with each kit.

The equipment is enclosed in a case assembly - **P/N SS-523.**
