FITTING SIZES

All test adaptors have factory installed hose connection fittings. When ordering test adaptors, please specify the type of fittings required.

AN Fittings:

-3 = 3/16" AN

-4 = 1/4" AN

-6 = 3/8" AN

Soft Tube Fitting:

-4H = 1/4" Tubing

Quick connect fittings are available upon request, including Swagelok, Hansen, Bruning, Staubli, and more.

SEAL AND SPACER KITS

Test adaptors contain seals and spacers that can easily be exchanged when burned or worn. Complete sets of seals and/or spacer kits for each type of test adaptor are available from NAV-AIDS Ltd and all official suppliers. When ordering seals or spacer kits, simply specify the part number of the test adaptor for which the seals are required. Part numbers are also listed on each adapter drawing. Please see: www.navaidsltd.net/seal-replacement-video.html for help.

SPARE PARTS

A drawing delivered with each test adaptor contains a list of all available parts, including seal and seal/spacer kit. Please specify the appropriate part number listed in the drawing.

LUBRICATING FLUID P/N LF5050

This fluid is used to lubricate the glands of pitot and static test adaptors. For pitot test adaptors, it is recommended that a small amount of lubrication fluid is placed on the pitot probe before the adaptor is installed. The lubrication fluid will ensure smooth adaptor installation on to the pitot tube.
